

# ADWIN H R

## Angular Developer

📞 9945599279    ✉️ adwinhr@gmail.com    📍 Bangalore, IN

### SUMMARY

Experienced Angular Developer with 2 years of experience and a degree in Information Science. Expert in Angular with experience in versions above Angular 6. Skilled in Node.js, HTML, CSS, and Agile methodologies.

### EXPERIENCE

#### Web Developer

One Trust

03/2022 - Present

Bangalore, KA, IN

OneTrust is a privacy and security software provider.

Ethics and Compliance :- Deliver the applications you need to raise awareness, engage your employees and other stakeholders, and promote an open and safe environment

Developed and maintained web applications for various clients.

- **UI Crafting:** Designed captivating UIs for TCs using SCSS, Sitedstudio, and JS (Vanilla, jQuery, ES6) to enhance user engagement.
- **Drupal Expertise:** Developed Components, templates, views, and integrated modules, ensuring seamless functionality in Drupal environments.
- **Collaborative Development:** Proficient in Git, collaborated efficiently, and conducted code reviews for maintaining high code quality.
- **Analytics Integration:** Implemented Google Analytics 4 for valuable data insights and utilized Acquia Drupal for optimal website management, ensuring responsive designs for targeted customers.

#### Angular Developer

- **Dynamic UI Development:** Over 2 years as an Angular developer, I specialized in creating dynamic and responsive web applications using TypeScript, HTML, and CSS.
- **Component Design and Implementation:** Successfully designed and implemented robust components, ensuring seamless user experiences with a focus on scalability and performance using Angular CLI and RxJS.
- **Agile Collaboration and Tool Proficiency:** Actively contributed to feature-rich applications within Agile environments. Proficient in Jenkins, Bitbucket, and Visual Studio, I emphasized clean code practices, conducted unit tests, and managed version control using Git.
- **Continuous Learning and Quality Assurance:** Committed to ongoing professional development, I prioritized learning and applied unit test cases to ensure the delivery of high-quality solutions.

#### ML Engineering Internship

IISc,Bangalore

06/2021 - 11/2021

Remote

- Engaged in dehazing project using style transfer.
- This opportunity allows hands-on experience with GANs, TensorFlow, and Python, fostering expertise in cutting-edge technologies. Engage in real-world projects, honing practical skills in artificial intelligence and machine learning.
